

Romancing Aquarelle Landscape

A group exhibition by Slovak artists

Departing from the same passion of joyful escapades while one is dwelling in the creation of their art, a group of artists from Slovakia formed under *Slovak Watercolor*, will share their passion for watercolor narratives starting August 2021 in the Residence of the Slovak Ambassador.

Taking inspiration from natural beauty surrounding them, **Romancing Aquarelle Landscape** represent a visual landscape of sixty aquarelle paintings by twenty artists with impressionistic style pieces, depicting the countryside, historical townscapes, portraits, still life and popular figure made of organic forms. These random subjects, shares a narrative that offers both personal, and almost romanticised fragments of their nostalgia, tranquil and incandescent-like.

Slovak Watercolors was established at the beginning of the covid-19 pandemic in March 2020 by Iveta Jesenská dan Laszlo Pomóthy as aspirations to reach out to the world with a message of solidarity through watercolor painting.

It aspires to bring hope and peace while facing various challenges through the pandemic. As suggested from the pieces, some are fragments of pleasant memoirs of a particular place while others are simple subjects that brings contentment, just as watercolor painting had brought them.

The exhibition hopes to start a virtual conversation and bridge a relationship between Slovakia and Indonesia through friendship and art. **Romancing Aquarelle Landscape**, narrated by Monica Gunawan, Director of Art:1 New Museum, will open on August 1 until September 30, 2021 and is made possible through the support of The Slovakian Embassy in Jakarta.
